in the LDR**

The Most Widely Used Birthing Lights in America

Skytron Argos II Birthing Lights

Skytron Argos Series strobe guided, remote controlled lighting system is the most widely used birthing room light in America. With literally thousands of lights in use, Argos Series lighting is the system of choice for LDR and LDRP applications.

Exclusive Strobe Guided Control Wand with On/Off Switch & Recharging Base

Argos II Lighting Features include:

- Flush, Ceiling Mounted Lighting provides an Attractive, Homey Atmosphere
- Bright, High Quality Illumination
- Exclusive Strobe Guided Lighting Control, equipped with On/Off Switch
- Instant Practitioner Target Accuracy
- High Intensity Lighting for Repair of Vaginal Tears & Episiotomies
- Wide Angle Reflector Design
- Wall Control is standard for On/Off & Intensity Adjustment, including Directional Touchpad Controls

Wall Control includes On/Off, Intensity & Positioning Controls

Alternative Recessed Birthing Lights

Skytron Pilot Birthing Lights

The Pilot Series lighting system can also be used as a lower cost birthing room light alternative. The Pilot Series lighting system delivers excellent illumination, providing an infinite range of intensity settings and adjustments.

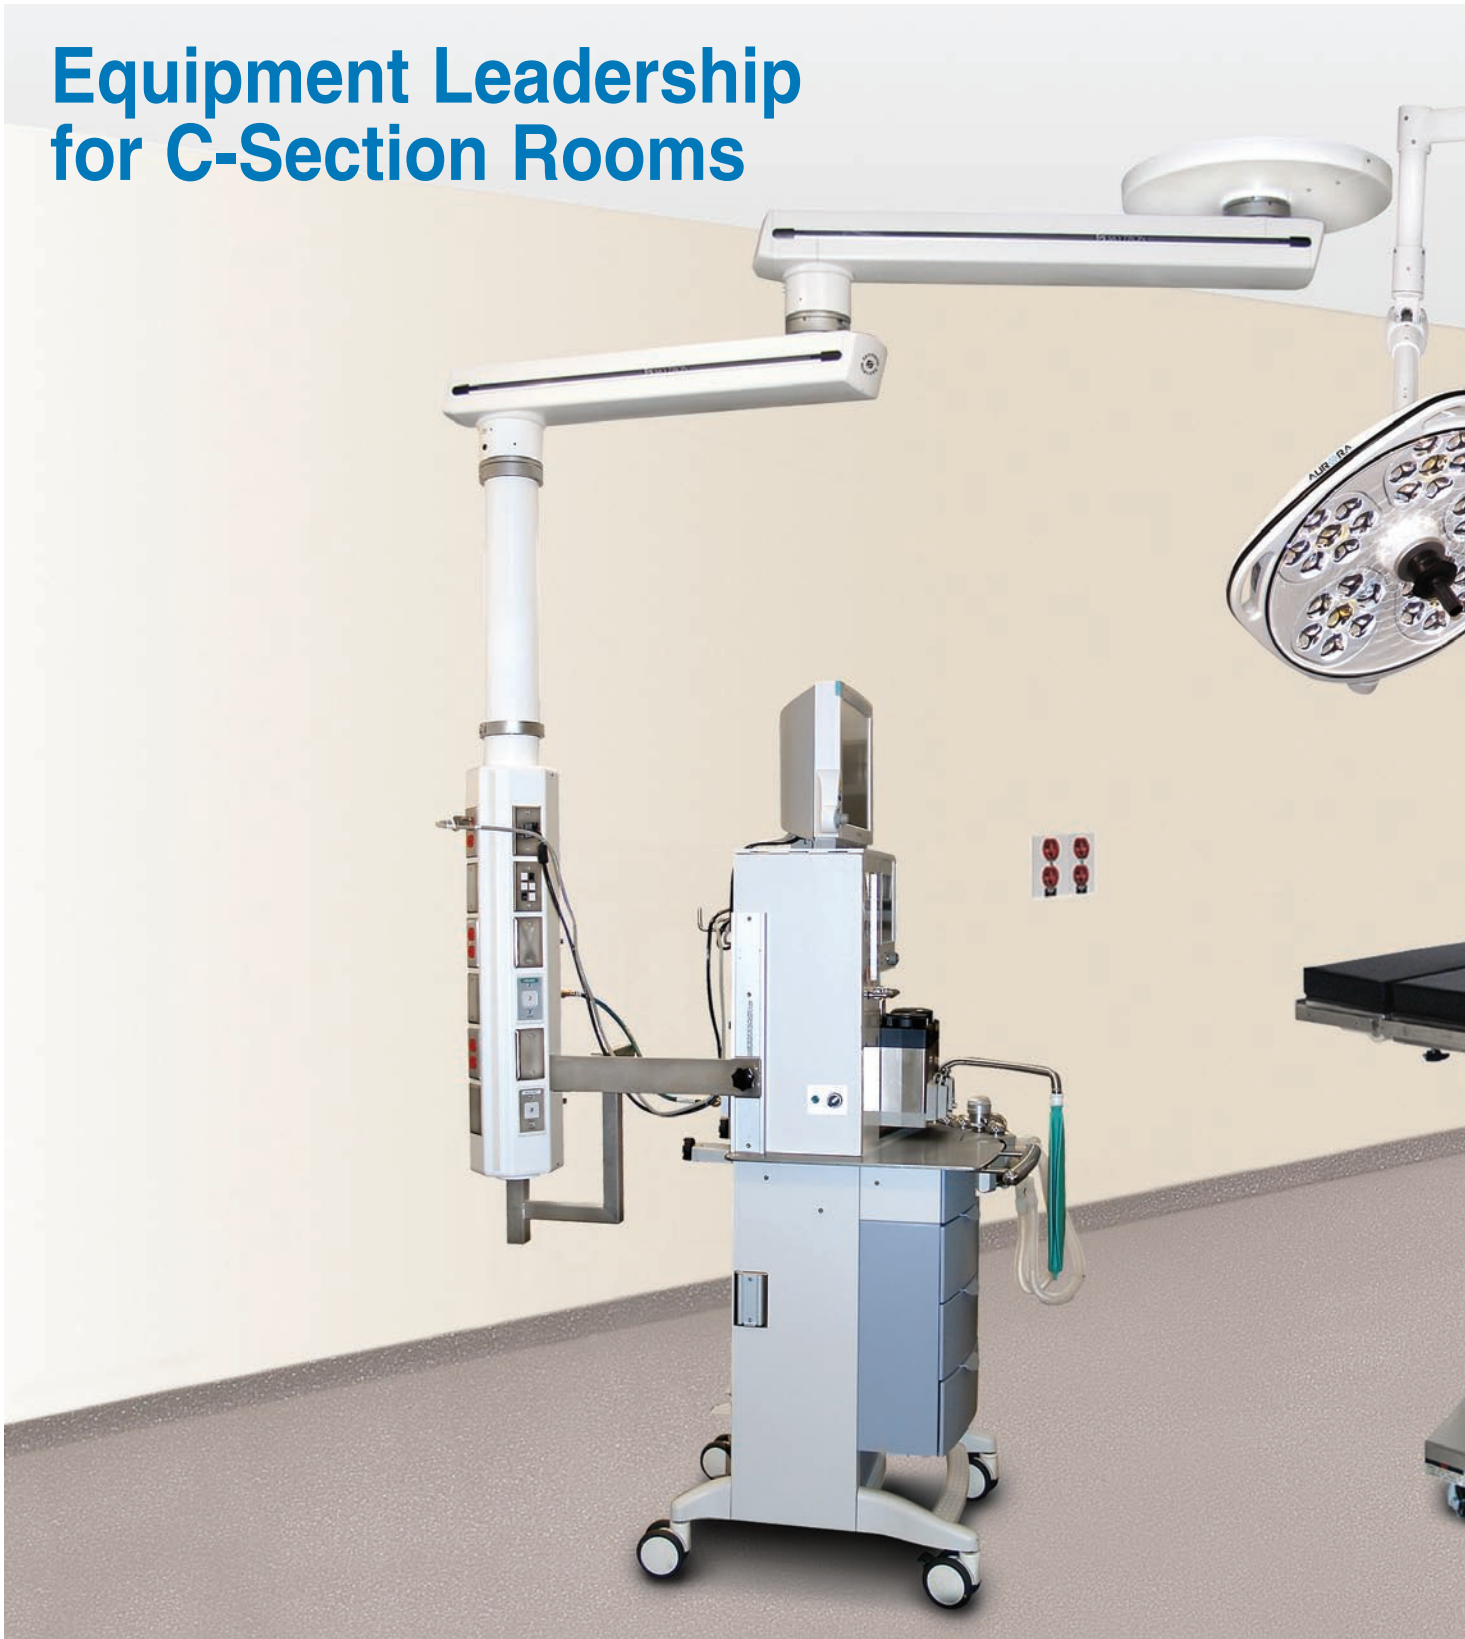

Pilot Lighting Features include:

- Ceiling Mounted Lighting provides Attractive, Relaxing Atmosphere
- Bright, High Quality Illumination
- Excellent Light Beam Control provided user “Line-of-Site” is maintained with respect to wall control and lightheads
- High Intensity Lighting for Repair of Vaginal Tears & Episiotomies
- Standard Wall Control with On/Off, Intensity & Positioning Adjustments via A/B Toggle Switch and Joy Stick Control

Wall Control includes On/Off, Intensity and Positioning Controls
