Company Overview

Meditek – Canada's Medical Equipment Sales and Service Experts

At the core of our business is a commitment to being there for you for L.I.F.E. — delivering leadership, innovation, focus and excellence in everything we do. With local sales representatives in all major markets from coast to coast, we are available to provide on-the-ground support that helps you make the most of everything we sell. Meditek is a Winnipeg-based medical equipment company offering nationwide service to hospitals, clinics and other healthcare facilities. We sell and provide support for a wide range of surgical tables, surgical lights, surgical booms and other products by leading manufacturers such as Skytron, Techlem and Biodex.

Over 30 Years of Hospital Equipment Expertise

Faced with shrinking budgets and an ever-pressing need to do more with less, today's healthcare professionals need a hospital equipment supplier that understands their needs and will work to deliver exceptional value. This is Meditek.

Since 1982, our goal at Meditek has been to build long-lasting relationships with Canada's leading hospitals and clinics to facilitate the continued growth and improvement of our country's health infrastructure.

You'll find our products in both acute and primary care facilities throughout the country, from waiting rooms to sophisticated hybrid operating theatres that are wired with the latest imaging and communications equipment. Browse our extensive inventory or call us today to find out how we can help you improve your level of patient care — while reducing your facility's operating costs.

New and Used Sales

With both new and remanufactured medical equipment available, Meditek has a solution to meet your organization's budget. Our remanufactured products have been completely reconditioned through our certified ReNew program, replacing wearable items and adding essential engineering upgrades to restore the unit to like-new condition.

Remanufactured surgical tables and lighting come with a comprehensive two-year warranty on all parts and labour. Get the equipment your organization needs while staying within budget.

Financing and Rentals

New or used hospital equipment is a major expense for any facility. Meditek offers flexible financing plans that work around your unique circumstances, allowing you to obtain the equipment you need to grow without a major outlay of capital.

For short-term equipment needs, rentals of some of our most popular products are available. Contact us for more information on our flexible renting terms.

Service Support and Consulting

From preventative maintenance to repairs, you can count on Meditek to keep your equipment running at peak performance.

You can also take advantage of our consulting services to get the most out of your physical and financial resources — without compromising workflow or patient care. Whether you're a growing hospital or newly opened clinic, our design consulting team can help you better plan your medical equipment expenditure and facility layout.

Find out more about what Meditek can do for you by contacting a local representative today!
